YWCA Charleston offers Implicit Bias Trainings within Boone, Clay, and Kanawha Counties.

Implicit Bias can be seen all around us - in everyday transactions from how we react to those whom we perceive as strangers, to what stereotypes we apply to those around us. We have trained over 1,400 individuals since 2018 and have partnered with an array of organizations. We welcome local organizations, businesses, and other groups to participate in our trainings.

Upon signing up for training, your organization will receive:

- Two-hour training on virtual platform
- Training Eventbrite platform to be used for participant correspondence (you only need to share the link)
- Pre-training activities including a bias pretest, handouts, & post-event evaluations for each trainee
- Educational follow-up materials for each trainee
